# Introduction

Secxon is a manufacturer with vertical integration and providing completed production service. Offering best garment manufacturing solution to big department store, online retailer, brands of designers etc.

Our factory located in China, has over 20 years experience in garment manufacturing, can produce samples base on request, offer customized service and mass production.

Our main products is knitted wear for women's wear, men's wear and kid's wear. Like tank top, T-shirt, POLO shirt, sweatshirt, hoodie, zipped hooide, sweatpants, tracksuit top, swim shorts, sweater, ect, we will update or recommend better fabrics for client's selection from time to time, to help clients develop more competitive collections.

Up to now, SECXON take every garment projects as cooperation relationship, put quality in the first place, and bring sustainability and ethical fashion into our company standard, this make us cooperated with over 1000 brands from all over the world. In the future, hope we can get a chance to assist you with development and production.

## **Mission:**

With the pursuit of quality, the search for better technology and constantly optimize the production process of commitment, our goal is to become China and even the world one of brands of high-end clothing manufacturer. Hope SECXON can be a pronoun of garment supplier when clothing brands search for supplier, and be your one-stop solution provider.

## **Vision:**

Our concept is simple

Do the right thing; Continously improve the quality of whole company, including improving the professional staff, strengthening the concept of enviromental protection and so on, meet your higher equirements for the garment industry in the future.

Take good care of this planet; Reduce the pollution index caused by garment manufacturing, and improve the capacity of resource recycling.

Take good caer of your staffs; Provide a good working enviroment and a fair and safe competition platform.

Creat durable clothing; Discover and apply better fabrics for customers to produce high quality clothing products that meet customer expectations.

**Your imagination, we can help to create!**

Provide embroidery service to brands, small and medium size company and wholesalers, chinese full service clothing manufacturer.

# Dyeing Service

Base on the Pantone codes which provided by client, we will provide dyeing service that meet international standards.

**Big Dyeing Machine**

We are equipped with large fabric dyeing machines, we also have 10 small fabric dyeing machines, in order to meet the requirements of more small and medium-sized clothing brands and wholesale companies on colors.

Therefore, when T-shirt order quantity reach 1000pcs per colors, hoodie order quantity reach 600pcs per colors, then we can offer dyeing service to you.

**Small Dyeing Machine**

# Quality Control

**Prioritizing quality, not price.**

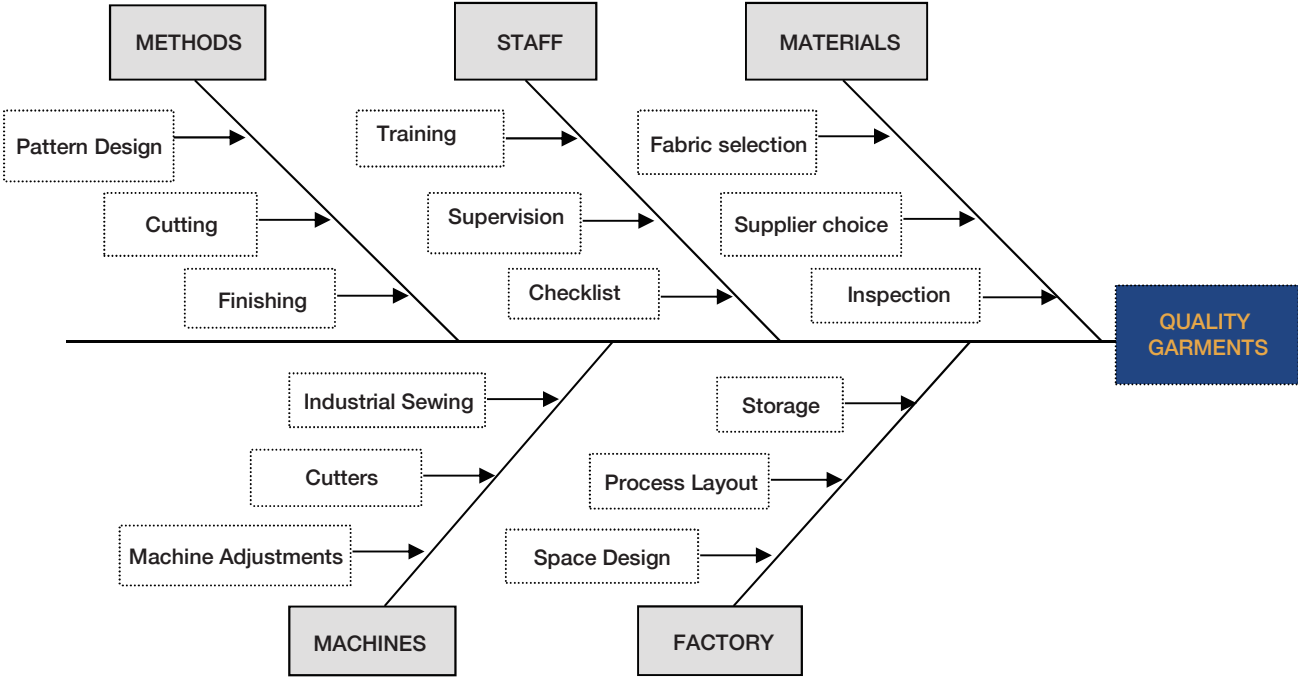

Clothing quality control runs through the whole period of production, that is, from the initial stage to the final stage, production requirements should be strictly implemented and special personnel should be assigned for inspection.

Quality Control in a Single Process Flow of Sewing Chart >> By SECXON

Systematic production process is only an important monitoring link in the production of high-quality clothing, and the experience and quality of factory personnel should also be considered, which can directly or indirectly affect the effect of ready-made clothing.

Secondly, there are many different influencing factors such as plant equipment, supply chain and environment. Therefore, since its establishment in 1995, SECXON has systematized and equipped with various factors required by the "quality control system" in the following table. Welcome to see it and hope to have the opportunity to cooperate with you.

Overall Considerations of Quality Control System >> By SECXON

# Support

## For emerging clothing brands and wholesale companies with small orders.

Base on our 25 years experience in this clothing field, to help you with a good beginning, effectively avoid 90% of the problems, and quickly realize your clothing product line.

## How can we support you?

### 1. LOW MOQ

Each order over 300pcs per colors, then we can customized and produce for you, effectively reduce your financial pressure.

### 2. Design assistance

With the help of our experience, we can provide you practical advice on fashion design, provide efficiency and keep up with market demand.

### 3. Establish production doc

Establish a clear production document and give it to you for confirmation, including but not limited to size chart, process, fabric and other details.

### 4. One-stop service

Providing printing, embroidery, customized labels and other necessary links for clothing production, to save time and reduce problems.

### 5. Reduce the price with your growth

We offer attractive pricing and discounts for large orders.

With the development of your brand and business, you will enjoy higher profits while growing with us.

### 6. Multiple fabrics for selection

We have over 500 different types of fabrics in stocks for your selection, to fit different designs and uses in small orders.
